Texas Visiting Program
The primary goals of Texas Home Visiting (THV) are to enhance maternal and child outcomes and to increase school readiness for children. To accomplish these goals, THV includes two primary components: (a) provision of evidence-based home visiting services for at-risk pregnant women and parents/caregivers of children birth to age five; and, (b) development/enhancement of early childhood coalitions that effectively coordinate services and address broad, community-level issues that impact young children and families. Texas Home Visiting is for expectant parents and parents with children six years old and younger.

Yes Waiver – Wraparound Services

The YES Waiver is a 1915(c) Medicaid program that provides comprehensive home and community-based mental health services to children and youth between the ages of 3 and 18, up to their 19th birthday, who have a Serious Emotional Disturbance (SED). The YES Waiver provides flexible supports and specialized services to children and youth who are at risk of institutionalization and/or out-of-home placement due to their SED.

The YES Waiver utilizes a Wraparound model for the planning process. A team comprised of formal and non-formal supports is created by the child and family to help to identify their strengths, needs and vision, and the team determines what YES Waiver services are needed to help address the child's behavioral health needs.

more to Texas schools. The agency also has programs supporting military families and homeless students and provides up-to-date information on weather and other disasters affecting Texas school districts.

between juvenile boards and juvenile probation departments and the various divisions within TJJD we can work together in all areas of juvenile justice.
This partnership encourages participation from all departments. TJJD understands the wide diversity in the many departments across Texas; the Probation and Community Services Division recognizes this also and serves as a resource for innovative approaches when problem solving. As a liaison between the Department and the field, the Probation and Community Services Division will to be a resource for the continued success of the departments and TJJD.
Other Departments within the Probation and Community Services Division:

- Interstate Compact for Juveniles (ICJ) – Texas students who are on supervision in other states;
- Juvenile Justice Alternative Education Program – 32 programs that serve students who have been expelled from their school districts;
- Placement Services & Title IV-E Program – oversees the Title IV-E Program for youth supervised by county juvenile probation departments and those committed to the Texas Juvenile Justice Department (TJJD). Title IV-E is a federal foster care reimbursement program which allows probation departments and TJJD to claim reimbursement for a percentage of the cost of placement for eligible youth placed in approved IV-E facilities as well as administrative costs related to operating the program.
- Prevention and Intervention Services - TJJD is committed to helping youth become productive, responsible, and lawful citizens by funding programs and services for students and their families, intended to prevent or intervene in at-risk behaviors that lead to delinquency, truancy, dropping out of school, or referral to the juvenile justice system.
- Special Needs Diversionary Program - The Special Needs Diversionary Program (SNDP) was created in 2001 to provide mental health treatment and specialized supervision in order to rehabilitate juvenile offenders and prevent them from penetrating further into the criminal justice system. The program is administered in a collaborative model by the Texas Juvenile Justice Department (TJJD) and the Texas Correctional Office on Offenders with Medical and Mental Impairments (TCOOMMI).

Community Resource Coordination Groups (CRCGs)
Community Resource Coordination Groups (CRCGs) are county-level groups comprised of representatives from state agencies and community partners. CRCGs serve children, youth, adults, and families with complex needs, whose needs cannot be met by one single agency. CRCGs partner with individuals and families to create an integrated Individual Service Plan (ISP) that coordinates services. CRCGs serve the following age groups: Children and youth: 22 and younger; Adults: 18 and older; Families: All ages.
There are approx. 140 CRCGs serving most of Texas's 254 counties. The contact information for local CRCG can be found using the search function on the website. For more information, please visit the website at: https://crcg.hhs.texas.gov.
If you have additional questions about the CRCG program contact the State CRCG Office at: 512-206-5255.

Disability Rights Texas
Protection and advocacy agencies (P&As) were created in the early 1970s, following a media investigation of Willowbrook, a New York State institution for children with mental disabilities. The press exposed deplorable conditions and inhumane treatment of residents at the government-run institution. In response, Congress passed legislation in 1975 designating an organization within each state to protect and advocate for the rights of people with disabilities. Disability Rights Texas opened its doors in 1977 with the mission of helping people with disabilities understand and exercise their rights under the law, ensuring their full and equal participation in society. Drop the Stigma
Drop the Stigma is a campaign designed by and for youth of color that seeks to make starting conversations about mental health easier. This is so important because the fact of the matter is that youth are experts on their own mental health needs and know what kinds of solutions are going to work best.

Hogg Foundation for Mental Health
The Hogg Foundation invests in programs, policy analysis, research and education through grants, scholarships and fellowships to transform how communities promote mental health in everyday life. The foundation builds capacity through planning, implementation, collaboration, and evaluation grants to eligible organizations and institutions.

The Hogg Foundation is guided in large part by Ima Hogg's vision for a Texas that supports and promotes mental health and well-being. Miss Ima believed that mental health exists along a continuum and people living with mental health conditions should be able to receive professional treatment and live rich lives in community-based, rather than institutional, settings. She believed supports for mental health and well-being can be applied to everyday situations in schools, workplaces, churches and families.
